

# Typing Tongue Twisters

## Objective

To reinforce new letters that are introduced to your students.

## Procedure

A simple yet effective mechanism for reinforcing new letter keys that are being introduced is to have students think of tongue twister sentences that include and repeat the new letters being learned.

Here's an example if the letter "W" is being introduced: Wanda walked willingly to work on Wednesday.

**Bonus:** Build a collection of the best tongue twisters and create a Custom Timed Test for each letter.

**Time required** Approximately 4-5 minutes.
